

WHAT IS IT?

Explore new wind instrument possibilities.

The Aerophone Brisa is a digital wind instrument that adopts the design and fingerings of the flute while maintaining various benefits unique to the Aerophone series: varied sound options, high-sensitivity sensors, ease of use, and customization.

It comes equipped with a newly developed sound engine tailored for the unique articulations of wind instruments and a series of tone options, from acoustic winds to modern synths, which allow users to explore the possibility of musical performance.

Brisa means "light wind" or "breeze" in Spanish and other languages. It offers a unique variety of wind instruments, allowing you to enjoy a robust performance experience. All the while, it makes playing a breeze.

WHO'S IT FOR?

Professional/Semi-Pro Wind Players

Who prefer flute-playing style and want access to both traditional and inspiring new sounds that help create that "wow" moment on stage or in the studio.

Passionate Hobbyists

Who are looking for an instrument that is instantly rewarding to play, with modern sounds and features to enhance their experience.

KEY BENEFITS

1 WIDE RANGE OF SOUNDS AND EXPRESSIVE CAPABILITIES

FEATURES

- Includes 100 sounds, from acoustic winds and modern synthesizers to world instruments and percussion, all in one instrument.
- Comes with a new sound engine, "SuperNATURAL Winds," delivering high-quality, unique sounds new to the Aerophone range.
- Various effects such as vibrato, harmony, and transposition allow users to broaden their expression without changing their familiar playing style.
- Equipped with a motion sensor, Brisa allows users to move the body of the instrument to effect the tone's character.

2 INTUITIVE DESIGN WHICH ADAPTS TO VARIOUS PLAYING STYLES

FEATURES

- Intuitive flute-based key layout makes playing Brisa feel natural and familiar.
- Offers selectable fingering modes, such as the default Brisa mode, based on recorder or sax-style fingerings, and Flute mode, so users can play in a way that feels most natural to them.
- Sound is produced by simply blowing into the mouthpiece, while a high-sensitivity, adjustable breath sensor captures the subtle nuances of acoustic instruments.
- The lightweight and elegant design is equipped with an onboard display and intuitive controls, making the playing experience enjoyable and effortless.

3 VERSATILE PLAYABILITY AND EXPANDABILITY FOR ANY MUSICAL SETTING

FEATURES

- Supports both Bluetooth and USB MIDI, enabling wireless connection with the dedicated app, wireless pedals, and mobile sound apps, or wired use as a MIDI controller with a computer, DAW, sequencer, or other MIDI-compatible instruments and apps.
- USB Audio allows direct digital recording to your DAW via a computer connection, and the single-cable audio output supports both silent practice via headphones and easy connection to larger sound systems.
- Onboard speaker positioned near the ear for monitoring sound or playing in quiet moments.
- Rechargeable lithium-ion battery allows users to play without needing a power supply.
- A free Brisa companion app allows users to control the instrument wirelessly, save favourite sounds, and adjust the onboard settings easily.

Roland Aerophone Brisa

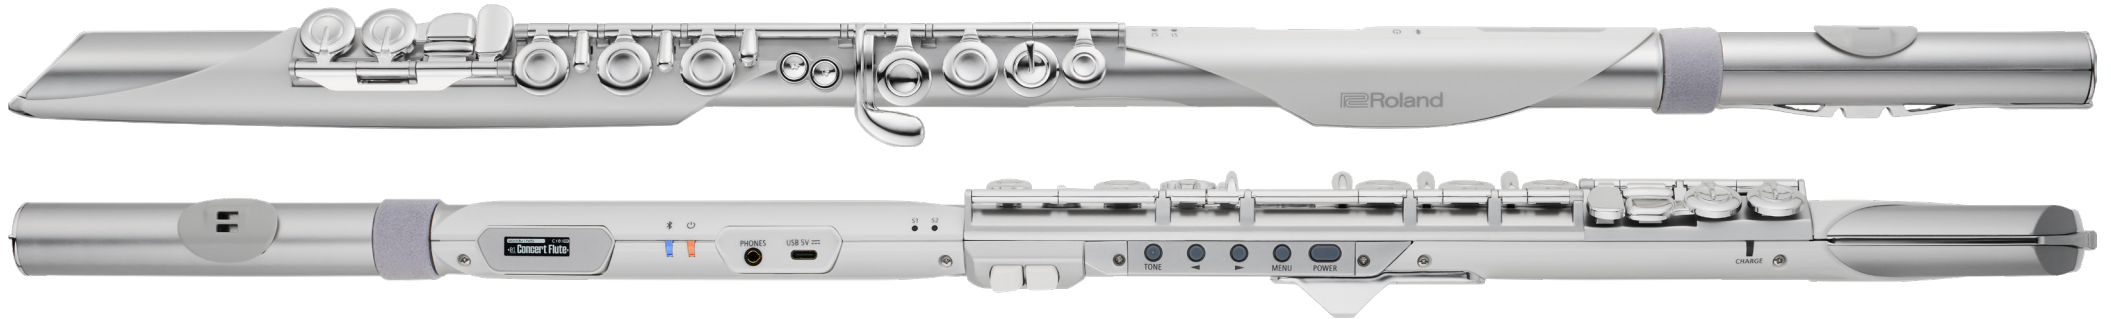

TECHNICAL HIGHLIGHTS

ELEGANT, FLOWING DESIGN

Aerophone Brisa features the signature Aerophone series design with beautiful, flowing curves. Its graceful form enhances your performance presence on stage while offering a visually striking silhouette. A design that delivers both joy in playing and pride in ownership.

FINGERING MODES FOR EVERY PLAYING STYLE

Designed to meet the needs of a wide range of players, Aerophone Brisa offers multiple fingering modes. These include the newly developed beginner-friendly "Brisa Mode," as well as "Flute Mode" and "Trumpet Mode" for those with experience playing acoustic wind instruments. Whether you're just starting or an experienced player, you'll find a mode to suit your style.

INNOVATIVE DUAL BREATH SENSOR

Equipped with two advanced breath sensors, Aerophone Brisa enables octave switching when in "Flute Mode." This allows for more expressive, natural wind control, bringing your performance closer to the feel of an acoustic instrument.

EXPRESSIVE, VERSATILE CONTROLLERS

Enhance your performance with a range of onboard controllers. These include thumb buttons, S1/S2 button, and a motion sensor that lets you apply effects like vibrato through body movement—unlocking new layers of musical expression.

EXPRESSIVE NEW SOUND ENGINE

One of the core elements of Aerophone Brisa is a newly developed sound engine, "SuperNATURAL Winds," optimized for wind instruments. Delivering rich, natural expression, it faithfully translates every breath nuance into vibrant sound—mirroring the dynamic control of acoustic instruments.

OVER 100 VERSATILE SOUNDS

Aerophone Brisa comes loaded with 100 expressive tones. Plus, users can access 14 additional tones by logging in to Roland Cloud via the Aerophone Brisa app. Audition various sounds from the flute family, from concert flutes, piccolos, and bass flutes to jazz flutes, covering all your musical needs. Also included are other orchestral instruments like saxophones, clarinets, trumpets, and strings, as well as ethnic instruments like pan flutes and shakuhachi, plus synths and drums—offering a world of sound for limitless creativity.

PREMIUM CASE

A custom-designed case is included for convenient storage and transport. It offers a secure fit that protects your instrument from impact, while its premium look ensures you travel in style.

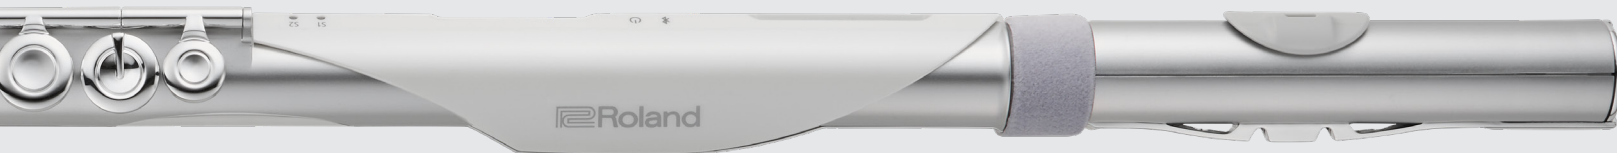

INTUITIVE CONTROL WITH A DEDICATED APP

A dedicated app (iOS/Android) provides easy access to tone selection and device settings via smartphone or tablet. You can register and manage up to 60 favorite tones (12 tones × 5 banks), allowing for quick changes during live performances and rehearsals.
