

WHAT IS IT?

Tomorrow Returns

Carrying forward the legacy of the TR-808 and TR-909, the TR-1000 Rhythm Creator is Roland's most powerful drum machine yet, purpose-built for today's producers and performers. It fuses Roland's iconic analog TR sound with advanced digital instruments and sampling, delivering an all-in-one, hybrid platform for rhythm creation.

Its hands-on controls and streamlined interface encourage real-time manipulation — from subtle shifts to bold sonic transformations — supported by a sophisticated sequencer and deep sound design tools. Developed in close collaboration with a global community of electronic music artists, the TR-1000 balances an array of cutting-edge technology with performance-minded design to inspire new directions in rhythm.

WHO'S IT FOR?

Electronic Music Producers & Performers

- Professional or semi-professional.
- Primarily techno, house, and other innovative electronic music.
- Studio-based creators who prioritize hardware workflows over DAWs, and performers who use drum machines in live set ups.

KEY BENEFITS

1 FULL SOUND SPECTRUM

FEATURES

- A trifecta of Roland's classic analog TR sounds, powerful digital processing, and stereo sampling for distinctive, dynamic rhythms.
- The **TR-808 + TR-909 analog sound engines** capture the boom, snap, warmth, and presence that define the sonic DNA of modern sound. With expanded controls and tuning, TR-1000's carefully crafted enhancements offer newfound flexibility.
- **Advanced digital sound engines** offer **ACB** (Analog Circuit Behavior) for high-detail virtual analog modeling, including 19 new circuit-bent 808 / 909 voices, plus FM synthesis, VA waveforms, and PCM for deep sonic exploration and newfound digital textures.
- **Stereo sampling** and resampling, BPM Sync for loops, real-time time-stretching, and up to 16-slice editing for seamless loop creation and one-shot design.

2 BRING SEQUENCING TO LIFE

FEATURES

- Classic TR-style step, real-time, and off-grid sequencing with advanced tools for evolving grooves.
- Dynamic pattern tools add movement and variation using step direction, cycle conditions, probability settings, and more.
- Offers detailed timing resolution and flexible control, making it easy to capture expressive performances with or without quantization.
- Tight sync and clocking with external hardware, modular systems, and DAWs ensure seamless integration, expanding your MIDI setup.
- Link up to 128 patterns with Song Mode to create evolving arrangements for live performance or mapping compositions.

3 TOUCH, TRIGGER, TRANSFORM

FEATURES

- An instrument built to be played, with dedicated step keys, assignable knobs, and fluid faders for real-time control over every aspect of your performance.
- Assignable morph fader can control multiple parameters for smooth transitions or radical transformations with a single movement.
- Dedicated volume faders and onboard effect controls make it easy to shape sound and create changes on the fly.
- Go deeper with Motion Recording per Step for automated changes or Step Loop for syncopated fills.

TECHNICAL HIGHLIGHTS

ANALOG VOICES

TR-1000 Rhythm Creator is Roland's first true analog drum machine in over 40 years. Featuring Roland-built TR-808 and TR-909 analog instruments with added enhancements like expanded pitch and decay ranges, tunability, and greater dynamic control.

DIGITAL VOICES

Advanced digital sound engines with ACB (Analog Circuit Behavior) for high-detail virtual analog modeling, including 19 new circuit-bent 808 / 909 voices (8X / 9X in GEN menu), plus FM synthesis, VA waveforms, and PCM for deep sonic exploration and newfound digital textures.

ADVANCED SAMPLING

Over 2500 built-in sounds, stereo sampling, and re-sampling to create custom-loops and one-shots in real time, plus flexible time-stretching and 16-slice editing per instrument. Internal sample memory is 64GB, with 46GB available for user samples.

NEXT-GEN SEQUENCER

Capture dynamic real-time performances with or without quantization, record knob movements, fine tune timing, and set cycle and probability conditions for dynamic, evolving sequences.

PERFORMANCE EFFECTS

Fluidly alter multiple assigned parameters with the morph fader, snap between knob settings with Snapshot, and tap into Step Loop for syncopated fills.

ANALOG & DIGITAL EFFECTS

Shape tones with the new Roland-style analog State Variable Filter—inspired by classic OTA designs like the JUPITER-6—or add punch and color using dedicated analog Drive. Add digital favorites like Crusher, Filter+Drive, DJFX Looper, and Isolator, or bend space with Scatter, Flanger, and Phaser.

BUILD SUMMARY

MODEL NUMBER		TR-1000
MODEL NAME		TR-1000
PRODUCT CODE		425311
SCHEDULE		Production Platinum
AVAILABLE		SEPT 2025
NEW/REPLACES		NEW
OUTER CARTON	COUNT	2
	SIZE	MM 645 x 425 x 475
		IN 25-3/8 x 16-3/4 x 18-5/8
WEIGHT	KG 19.51	
	LB 43	
SINGLE BOX	SIZE	MM 620 x 405 x 221
		IN 24-1/2 x 16 x 8-5/8
	WEIGHT	KG 8.7
LB 19lb 3oz		
PRODUCT	SIZE	MM 486 x 311 x 125
		IN 19-3/16 x 12-1/4 x 4-15/16
	WEIGHT	KG 5.5
LB 12lb 3oz		
ORIGIN	Malaysia	
SKU	EAN/JAN	4957054519674
	UPC	761294519677
IN THE BOX	<ul style="list-style-type: none"> • Power cord • Owner's manual • USB Type-C to USB Type-C cable (with ferrite core) 	
RECOMMENDED ACCESORIES	Pedal Switch FS-5U, FS-6 Expression Pedal EV-5
